

PROGRESS REVIEW CRITERIA FOR EDUCATIONAL SCIENCES (CURRICULA STARTING FROM 2024/2025)

Research, development, and creative work (RDC), including the component of the doctoral thesis		Total module volume: 210 ECTS			
		Monograph	Article-based dissertation		
	TOTAL PER COMPONENT:	210	210	Submission requirements	Notes
1	Student's research plan which must cover the entire period of doctoral studies and include a methodology plan for the PhD thesis	10	10	Submits in writing, along with the supervisor's approval	The research plan for the doctoral thesis is more detailed and thoroughly worked out than the proposal submitted upon admission (the research plan project) - it is submitted for progress review at the end of the first and/or second academic year.
2	Articles required according to doctoral study regulations of TLU (in the case of an article thesis, three articles in the article thesis part of a 30 EAP/ in the case of a monograph, one article)	30	90	Submits a status report on the completion of self-analysis articles based on the individual plan (preferably along with a draft of the article); for articles accepted for publication, a copy or a web address where the article is available, along with an email confirming the acceptance of the article or a confirming document.	See the requirements for articles in the regulations for doctoral studies and the defense of doctoral theses at TLU
3	Chapter/division of a PhD thesis in the monograph format/ Analytical overview of the PhD thesis	90	30	Submits a status report on the completion of monograph chapters based on the individual plan (preferably along with a draft of the text); for completed chapters, also the text of the chapter.	An unrevised chapter of the monograph is comparable to an article in 'submitted' status in a thesis.
4	<i>Other activities supporting the completion of the doctoral thesis according to the individual study and research plan, including:</i>	70	70	<i>It is submitted according to the instructions below, with the supervisor adding a reasoned assessment of the total calculated volume of other supporting activities.</i>	<i>The basis for the calculation is the standard EAP and workload ratio, meaning that 26 working hours correspond to 1 EAP of calculated volume.</i>
	Participating in research seminars and making presentations			Submits an overview in the self-analysis.	This does not include seminars already accounted for in some subject modules; participation in seminars organized by the Institute to support the completion of the doctoral thesis is mandatory within the RDC module.
	Elaboration and systematization of the literature concerning the theoretical basis of the doctoral thesis			Submits an overview in the self-analysis of the work done in addition to the calculable workload directly necessary for the completion of articles or monograph chapters.	This does not duplicate the calculable workload for articles or monograph chapters. When preparing the individual plan, the calculable volume for such activities is a maximum of 10 EAP.
	Development of the research instruments and the methodological principles for the PhD study			Submits an overview in the self-analysis of the work done in addition to the calculable workload directly necessary for the completion of articles or monograph chapters.	This does not duplicate the calculable workload for articles or monograph chapters. When preparing the individual plan, the calculable volume for such activities is a maximum of 10 EAP.
	Additional articles (in the case of an article thesis can be part of a doctoral thesis)			Submits a copy of the article or the web address where the article is available.	
	Conference presentations			Submits a copy of the conference program and presentation theses or a copy of the poster presentation.	The conference presentation includes the publication of theses (the submission of theses is generally a prerequisite for the acceptance of the presentation). The publication of the full text of the presentation as an article is counted separately in the category of scientific publications. Experience in delivering oral presentations at conferences is mandatory within the RDC module.
	Activities related to science communication			Submits an overview in the self-analysis.	
	Involvement of students in research			Submits an overview in the self-analysis.	For junior researchers, supervision of student work conducted in addition to the workload prescribed for teaching is also considered.
	Developing transferable skills that support research etc			Submits an overview of the courses attended, writing camps, doctoral school events, etc.	This does not include courses, trainings, and workshops already accounted for in some subject modules
5	Preliminary defence	5	5	According to the regulations for doctoral studies and the defense of doctoral theses.	
6	Defence	5	5	According to the regulations for doctoral studies and the defense of doctoral theses.
